Universal GEOINT Certification Program Certification Maintenance Form

This form serves to document your progress in maintaining your Universal GEOINT certification. Per the Certification Maintenance Policy, you can either obtain the required number of Professional Development Unites (PDUs) as stated in the Candidate Handbook or take and pass a USGIF-Sponsored Certification. Please review and fill in the necessary information on this form. You will likely need to reference the Candidate Handbook (available here: usgif.org/certification) to allocate the appropriate number of PDUs for a given activity.

Audits will be conducted on a periodic basis to ensure the continuing maintenance of your certification. You may be contacted by the Universal GEOINT Certification Program Management Office (PMO) to request specific documentation related to your PDUs. Therefore, you are strongly encouraged to retain all documentation related to PDU credit. Failure to provide the necessary documentation is sufficient grounds for certification expiration and/or revocation.

Please submit your completed form to credential@usgif.org no later than the expiration date for your most-recently earned Universal GEOINT Certification Program certification.

Name: _____

Certification(s) – Select All That Apply

Certified GEOINT Professional – Geospatial Data Management (CGP-D)

Certified GEOINT Professional – GIS & Analysis Tools (CGP-G)

Certified GEOINT Professional – Remote Sensing & Imagery Analysis (CGP-R)

Certification Expiration Date: _____

There are two paths to Certification Maintenance. Please select which path you are using.

<p>Path 1: A combination of Professional Development Units (PDUs) in each of the following categories:</p> <ul style="list-style-type: none"> • Continuing Education (minimum 45 PDUs required) • Professional Development (minimum 45 PDUs required) • Future Capabilities Awareness (minimum 10 PDUs required) 	
<p>Path 2: Obtaining another Certified GEOINT Professional certification:</p> <ul style="list-style-type: none"> • Certified GEOINT Professional – Geospatial Data Management (CGP-D) • Certified GEOINT Professional – GIS & Analysis Tools (CGP-G) • Certified GEOINT Professional – Remote Sensing & Imagery Analysis (CGP-R)
