Cindy Liu

Cindy Liu is the Liaison to Source for NGA's Artificial Intelligence, Automation, and Augmentation (AAA) Team within the newly formed Data and Digital Innovation Directorate, leading the Algorithm Governance, and Enterprise Data Management Lines of Effort within the AAA Team. Before joining AAA, she served as an Intelligence Director within NGA's Time Dominant Operations Center, regularly briefing the Director of NGA and the Agency on high-current interest developments and the latest GEOINT discoveries.

Ms. Liu served as the Plans & Exercises Officer in the INDOPACOM NGA Support Team at Pearl Harbor, providing direct exercise support to NSG and ASG partners on high visibility events within the Combatant Command. Prior to moving overseas, she was a human geographer, linguist, and mission integrator for China within the Office of Geography in NGA. Ms. Liu is a trained Imagery Analyst, having worked in the Analysis Directorate. She has also held various staff positions in the NGA Executive Secretariat and within the Source Front Office leading suspense management. She has been Chair of NGA Professionals Network, an NGA Ambassador, and an NGA Recruiter.

Ms. Liu has a Master of Science of Strategic Intelligence from National Intelligence University and a Certificate in Chinese Intelligence Studies. Her graduate thesis on Taiwan's 2016 Presidential Election was published in *International Affairs*, the Foreign Area Officer Association's Journal. She graduated summa cum laude with a BA in Sociology from UCLA.
